

Documentation: XLSX Template for Area Importing

I. Main headers

Area_0Code, Area_0Name, Area_0Name_(translation iso code), Area_0Ref,
Area_0AltName1, Area_0AltName2, Area_0Kind

You can add more levels on areas by changing the level on the headers.
Adding levels should be done by descending order. See image below for reference.

Area_3Code	Area_3Name	Area_3Name_en	Area_3Ref	Area_3AltName1	Area_3AltName2	Area_3Kind	Area_2Code	Area_2Name	Area_2Name_en	Area_2Ref
A000001-1-1	Sample Store 01	Sample Store 01	SS1	Sample Store 01	Sample Store 01	Store	A000001-1	Bayombong	Bayombong	BAY
A000001-1-2	Sample Farm 01	Sample Farm 01	SF1	Sample Farm 01	Sample Farm 01	Farm	A000001-1	Bayombong	Bayombong	BAY
A000001-1-3	Sample Store 02	Sample Store 02	SS2	Sample Store 02	Sample Store 02	Store	A000001-1	Bayombong	Bayombong	BAY
A000001-2-1	Sample Farm 02	Sample Farm 02	SF2	Sample Farm 02	Sample Farm 02	Farm	A000001-2	Solano	Solano	SOL
A000001-2-2	Sample Farm 03	Sample Farm 03	SF3	Sample Farm 03	Sample Farm 03	Farm	A000001-2	Solano	Solano	SOL
A000001-2-3	Sample Store 03	Sample Store 03	SS3	Sample Store 03	Sample Store 03	Farm	A000001-2	Solano	Solano	SOL

As you can see here, there is a level 3 area. Thus, makes it a child of level 2 area, then level 2 will be child of level 1 and so on.

*Note: Level 0 is important as it was the main parent of all levels.

II. Translations

You can also add more translations of the area name. Just add the column right after **Area_0Name_en** with same format but change the 'en' to preferred translation ISO Code.

Reminder:

Make sure the language/s you are adding is/are already activated on Odoo > Settings > Translations > Languages. See image below for reference.

Languages							Search...
Create							▼ Filters ▮ Group By ★ Favorites
<input type="checkbox"/> Name	Locale Code	ISO code	URL Code	Direction	Active		
<input type="checkbox"/> English (US)	en_US	en	en	Left-to-Right	<input checked="" type="checkbox"/>	Update	Disable
<input type="checkbox"/> Albanian / Shqip	sq_AL	sq	sq	Left-to-Right	<input type="checkbox"/>	Activate	
<input type="checkbox"/> Amharic / አማርኛ	am_ET	am_ET	am_ET	Left-to-Right	<input type="checkbox"/>	Activate	
<input type="checkbox"/> Arabic (Syria) / أَرَبِيَّةُ سُرِّيَا	ar_SY	ar_SY	ar_SY	Right-to-Left	<input type="checkbox"/>	Activate	
<input type="checkbox"/> Arabic / أَرَبِيَّةُ	ar_001	ar	ar	Right-to-Left	<input type="checkbox"/>	Activate	
<input type="checkbox"/> Basque / Euskara	eu_ES	eu_ES	eu_ES	Left-to-Right	<input type="checkbox"/>	Activate	

You can also go here to check the right ISO Code.
